

# Write Efficiently in Markdown!

Vincent Tam

November 9, 2014

## Section 1: sample code block

Use the *following* command to generate a PDF file.

```
$ pandoc -f markdown+yaml_metadata_block foo.tex -o foo.pdf
```

The file extension `.tex` is for using Vim-L<sup>A</sup>T<sub>E</sub>X.

### Subsection 1.1: sample math

Suppose that  $\mathbf{x} \neq \mathbf{0} \in \mathbb{C}^n, \mathbb{Q}^n, \mathbb{Z}^n, \mathbb{N}^n$ . Then we have

$$(1) \quad \int_0^1 1 \, dx = |1| = \left\| \frac{\mathbf{x}}{\|\mathbf{x}\|} \right\|.$$

## Section 2: sample list

One can refer to (1). Here's a numbered list.

1. Sample link to pandoc's [markdown syntax](#)
2. Sample link to my blog: <https://vincenttam.github.io>
  - Sample item: my introduction is under `/about`.
  - Sample item: the blog archive is under `/archive`.
3. Sample item.

## Section 3: sample picture

It's **not** so easy to insert pictures in L<sup>A</sup>T<sub>E</sub>X, while it's *simple* in Markdown.

What do you think?

How do you feel about the overuse of exclamation points?

I'm not sure

It's becoming a problem

I love it!!!!

**note** (nɔt )
